

# Town of Brookeville, Maryland Comprehensive Plan Update to Transportation, Pedestrian Networks & Streetscaping Elements

## Project Overview

With completion of the Brookeville Bypass in summer of 2021 and the reduction of traffic through Town by 10,000 trips per day, the Town of Brookeville is ready to explore opportunities for more complete streets that will better meet the needs of all users in a safe and historically appropriate manner—turning what was a high volume/high speed road corridor back into a street for people and placemaking.

In addition to the completion of the Bypass, the Town received a state grant that will help fund improvements to the Town maintained portion of Market Street. This funding will help the Town explore alternative road configurations that provide for traffic calming and streetscape changes, while enhancing the aesthetics of the Town and maintaining its rural, village character.

## Updating the Transportation, Pedestrian Networks & Streetscaping Elements of the Comprehensive Plan

The Town of Brookeville is looking to update the “Transportation, Pedestrian Networks & Streetscaping Elements” of its Comprehensive Plan. They have retained Lardner/Klein Landscape Architects to help them with the update. Conducting this study requires enthusiastic outreach to town leadership, neighbors, Montgomery County staff, and representatives, as well as the provision of means for all parties to articulate ideas, generate goals, and spell-out their desired outcomes for the plan. With this in mind, Town representatives will conduct four informal working sessions with their planning consultant to develop the plan. The Town will also sponsor two virtual public workshops to provide additional opportunities for community members and interested stakeholders: a community visioning meeting and a community-based planning workshop to ensure that the plan, as it develops, is consistent with public vision, goals, and values.

## Anticipated Schedule

2021

### BRAINSTORMING

April

- Kickoff Tour with Planning Commission
- Preliminary Vision and Goals

### COMMUNITY VISIONING

April

- Public Visioning Session (Virtual)

### GOALS AND STRATEGIES

May

- Develop ideas into specific goals and strategies (preliminary plan)
- Community Planning Workshop (Virtual)

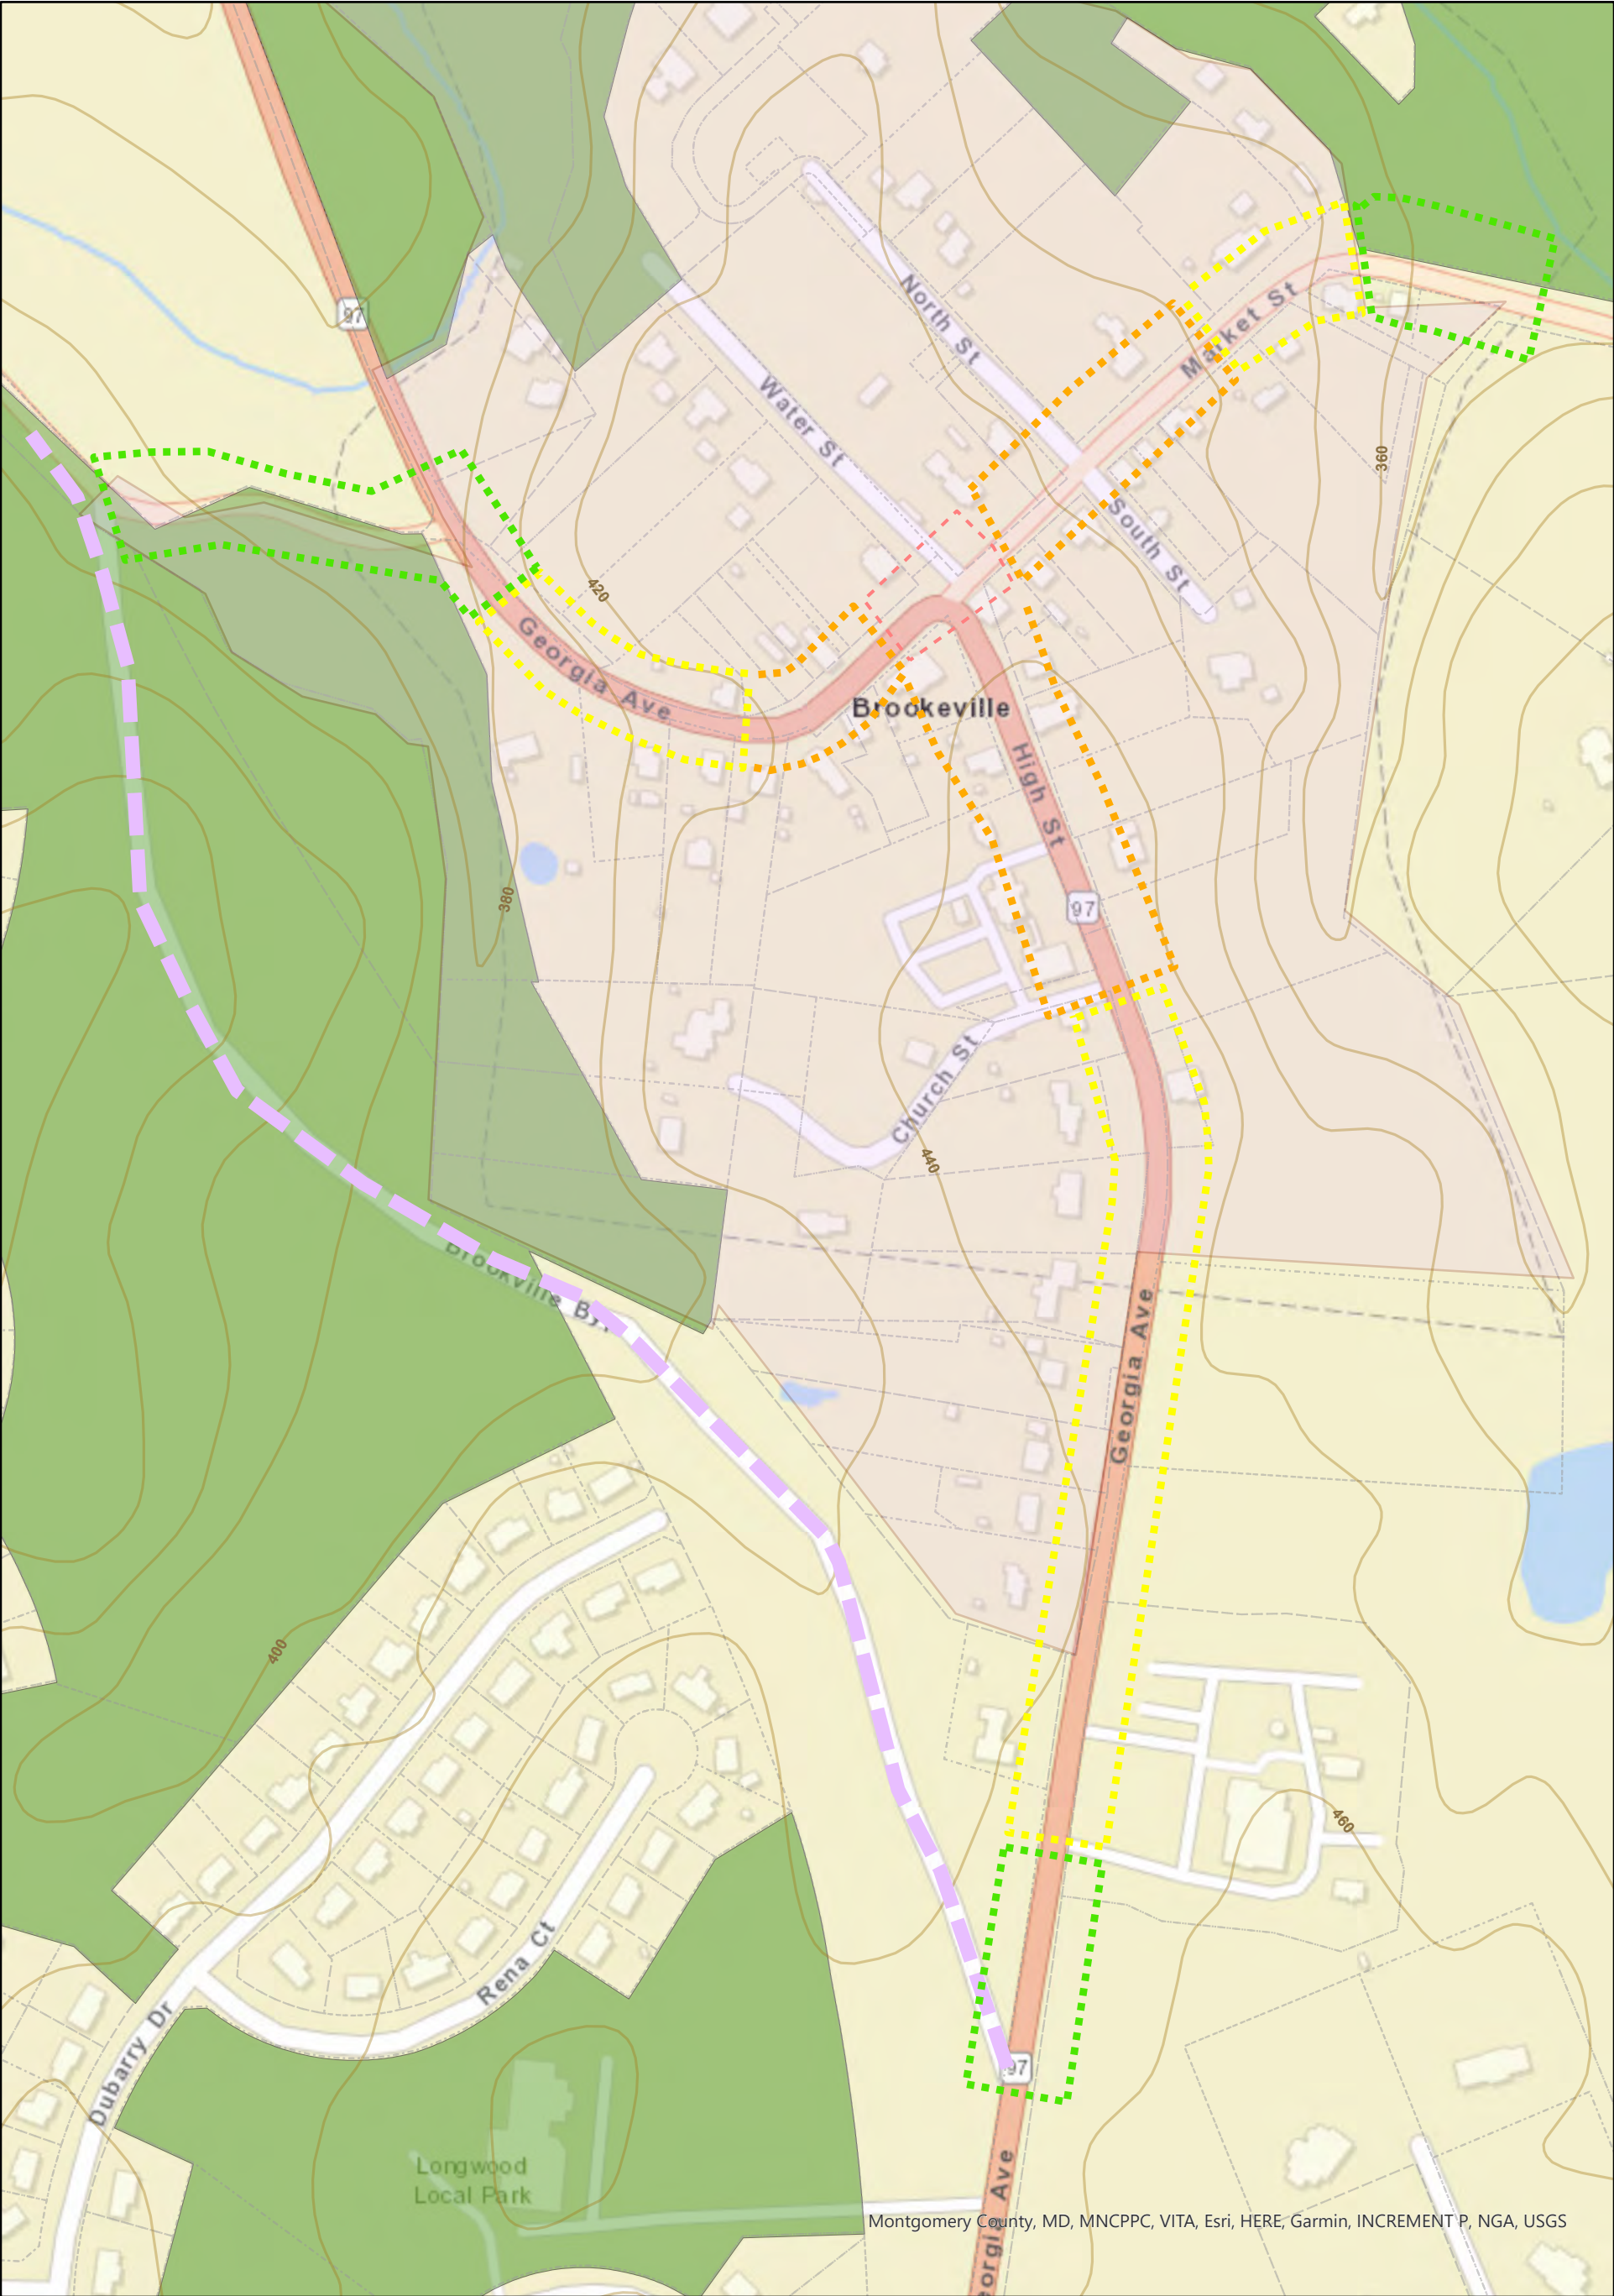

### DEVELOP PLAN

June

- Draft Plan and Implementation Priorities
- Review and Revise Plan

Valley Mill House, Brookeville, MD
